Section III subsection C

The Defendants on multiple occasions violated, Before 6/2023 to Present of the writing of this lawsuit 6/16/2024 and the start of correspondences to seek intervention and help. In which these laws were violated, openly seeking help from multiple federal agencies, departments and entities regardless of political affiliations, during the time to seek help, intervention, and aid was forcibly human experimented on to psychologically steering a desired outcome, that was not of my own will or desires, specifically those entities of and within the Central Intelligence Agency, National Security Agency, Department of Defense, Office of Secretary of Defense and Joint Chiefs of Staff.

I have been the subject of an unconsented human experimentation involving nanotechnology, Part of the Department of Defense, Central Intelligence Agency, National Security Agency, development program at DARPA called the Brain Initiative, this human experimentation to the best of my knowledge started at the earliest November 2012, has drastically persisted and has exponentially gotten worse, but it seemingly steams from an email written to Jeffrey Bezos in October 2010, and my life has been psychologically steered also social isolated to what I would suppose to frame me in a false flag operation, for Biological Research, or other nefarious or dubious reasons. Some how freemasonry has gotten involved to some degree which has made my personal, and work life worse than anyone would have intended, by questioning my faith in a divine being or higher power. I have not been able to go to college, seek proper medical necessity or care, the inability to obtain a job of reasonable income without harassment, slanderous defamation of character, as well as the inference of mental instability or mental fragility. Mockery, or infringement of my civil liberties and rights. The nanotechnology in question has capabilities of a large degree to interfere with ones normal train of thought. Due to high frequencies, of sound as well as light waves, specifically microwave, infrared wave, and possibly UV waves, using FCC regulated frequency channels. This technology "nanotechnology" also has the capabilities and capacity to disrupt or interfere with normal bodily functions. This technology "Nanotechnology" has the capabilities to have one lose appetite, there were days were I would just eat a apple, sleep deprivation lasted an extended 3 months, but happens constantly.

Since the date stated 6/2023 I have contacted numerous people, entities, agencies, departments, and Government to help petition in this matter as it is and has possibly been a disruption of National Security. Going so far as to for me to petition the United Nations. National Security defined as is the security and defense of a nation state, including its citizens, economy, and institutions, which is regarded as a duty of government. Nations Security, which is the Constitution of the United States of America. As in, National Defense is the Constitution of the United States of America, as well as the preservation and security, of its due nature of its freedoms. With during the duration of this illegal human experimentation intellectual property has been compromised and stolen, Intellectual property defined as creations of the mind. Of which there are many, but the need for FOIA from the NSA, CIA, and others pertaining to any information and files that they do have regarding myself Joshua Anthony Jones and said

intellectual property is needed to verify that they were compromised and stolen. Also while being illegally human experimentated on what I would deem as the compromising of our nation's Nuclear Arsenal Information has happened, this too I have tried to reach out to various and numerous persons, entities, agencies, departments, and bodies of government to help petition in this matter to a degree as to not disrupt National Security, but again this persisted due to what I feel as to frame myself in a false flag operation. During this illegal human experimentation I was subject to sounds of women being raped, sounds of screams of torture, and any other depravity, and harassment from "were Nazi's Josh" on my birthday, to constant questioning of my character, about anything in general. This persisted 24 hours a day 7 days a week for well over a year.
